

## EDPSYCH 711-011 – Current Topics in Educational Psychology: Meta-Analysis

### Tentative Schedule & Readings

#### Explanation of Readings

- **Primary** readings cover the core content of the topic.
- **Alternative** readings cover most of the same material as the primary reading on the same topic, but usually at a simpler level of statistical detail.
- **Recommended** readings provide further important details on the topic, or are very well-conducted studies that add new insights to the topic.
- **Further** readings cover more technical or specialized content, in case you are interested in delving in beyond what is covered in class.
